CHICKEN  
DIPHTHERIA

## CHICKEN DIPHTHERIA

The human race is panicking. KFC's business is slowing down. The cause is due to the spread of Chicken Diphtheria that comes from genetically modified chickens. This disease is hard to test for which is why it spread so fast. What also didn't help was the mass consumption of chicken wings by humans.

### **SYMPTOMS**

- **Sensitive to Smells**
- **Rash**
- **Binge Eating**

## MILK SYPHILIS

Due to new genetic science in this year of 3000 a farmer paid for his cows to be genetically modified. The cows now provide regular white milk, chocolate milk, or strawberry milk depending on what gene they have. The chocolate milk and the strawberry milk cow now have passed a hidden disease Milk Syphilis to humans who drink the milk they provided.

### SYMPTOMS

- Abdominal Pain
- Confusion
- Trouble Walking

## GRAVY ANXIETY

Never thought a dinner involving gravy could lead to a pandemic. Gravy Anxiety is a disease found in gravy if not processed correctly. When the gravy is disturbed the particles of the disease fly through the air, ready to be ingested by their next target. With it being airborne, the disease travels fast.

### SYMPTOMS

- Memory Loss
- Hallucinations
- Shaking

PAPER  
SORES**

## **PAPER SORES**

It's 2087 and there are new trees providing paper to companies. This new paper posed a risk though. The paper is not processed correctly and is spreading a new disease Paper Sores. A high risk of infection is through a paper cut but can be transmitted if someone licks their finger, touches the paper, and licks the same finger again.

### **SYMPTOMS**

- **Ringing in Ears**
- **Cough**
- **Dry Mouth**
